

# THE INVERTED FLYER

NEWS of the BOULDER AEROMODELING SOCIETY  
AMA Charter # 906

## January 2018 Edition

### From the Editor

Hello everyone! With a new year comes a new newsletter editor, as I've taken over the duty from Al Coelho after years of faithful service (Thanks, Al!). I apologize for a short newsletter and generous empty space this time around, I'm still getting the hang of some new software and trying to get into the routine of collecting content. But I hope to make this a place where you can see a few hobby and aviation related nuggets each month as well as keeping abreast with the goings-on of the club via the meeting minutes. Please feel free to send me anything interesting you'd like to share with the rest of the club.

Sincerely,  
James Mack

### This Day in Aviation History

From Greg Hine

Want a daily fix of something aviation-related? Check out the "This Day in Aviation" website, which brings us a new aviation story or tidbit every day.

<https://www.thisdayinaviation.com/>

Below is an excerpt from January 3rd, showing the One of the first Boeing 707 airliners delivered to Pan American World Airways, N707PA. On 26 October 1958, N711PA, also named Clipper America, made the first regularly scheduled transatlantic flight by a jet airliner.

## BAS Meeting Minutes, 12/13/2017

HobbyTown Longmont

The meeting was called to order at 6:30 pm by President Murray Lull. There were 11 members present.

Rich Anderson moved that we accept the prior month's minutes as published. Motion approved.

There were no reports from the Vice President or Secretary.

Dean Ehn reported on the state of the treasury. It was noted that we need to change the address on the account for statements to that of the new President.

Al Coelho reported that we ended the year with 91 members. To date, 27 renewals have been received. He also noted that James Mack has volunteered to be the newsletter editor going forward.

Webmaster Mike Gulizia noted that the link to the field map on the site was updated, although the map currently there shows last year's restrictions.

Old Business:

Ken Jochim asked about the CAP group. Wendell Wickstrom reported that their interest seems to have disappeared. Ken reported that he is finally "certified" as an Introductory Pilot by AMA. No others expressed interest in being one.

Chester reviewed a proposed "procedures list", to be used to document the various activities the club does. Several items on the list already exist, and several new ones were added. Chester will work up a list of assignments for completing the rest of the write-ups.

Elections were held, and the slate of officers was elected unanimously. The new officers for 2018 are:

Chester Shans, President  
Murray Lull, Vice President  
Dean Ehn, Treasurer  
Ken Jochim, Secretary

There being no further new or old business, Dean Ehn moved that the meeting be adjourned.

The meeting was adjourned at 7:05 pm.

Respectfully submitted,

Ken Jochim  
Secretary

## Terrier ES Scratch Build

By Al Clark

As seen in the January 2018 issue of Model Aviation.

In 1982, author Al Clark designed his original glow-powered Terrier. He published it in 1984. Al recently redesigned the popular aircraft as an electric sport model and has provided an extensive feature detailing its construction and complete materials list.

The plans are available as a free download or can be purchased through the AMA Plans Service. The following highlights some of the changes in the Terrier ES, its features, and its flight characteristics.

**Next Meeting 6:30 PM, Wed Jan 10th, at HobbyTown USA Longmont.**

### THE INVERTED FLYER

Editor: James Mack

The Inverted Flyer is published monthly by the Boulder Aeromodeling Society as a service to its members. Submissions for publication are encouraged and can be but are not limited to: articles pertaining to Aeromodeling, letters to the editor, short news items of general interest to BAS members, and announcements. Space permitting, all submissions will be published except as follows: no anonymous letters or

any submission containing morally objectionable content or language, as judged by the editor. Classified ads will be provided to the members of BAS free of charge. The deadline for all submissions and classified ads will be the first of the month for publication on or about the first Wednesday of the month. Opinions expressed in the Inverted Flyer are not necessarily those of the Boulder Aeromodeling Society general membership.
